

Who Moved My Cheese?

July 11, 2018
Rachel Yates

We follow patterns because it's more efficient and quicker. I have my morning routine, and if I brush my teeth out of order, then I have to really concentrate on what comes next. We follow the same route to church, unless there is road construction forcing a detour. Like a mouse following the expected pattern in the maze to find its cheese, we navigate our lives with agility when we know the route well. So, it can be disconcerting when what was familiar has changed – when someone moves our cheese -- and we no longer know our way around.

The Presbytery of Milwaukee just moved your cheese, and we didn't give you any advance warning. That's risky because in Wisconsin, you take your cheese seriously.

This past week, we made some changes to the maze that was our website: www.pbymilwaukee.org. We hope you'll find that it's actually less of a maze now, and that you can find what you're looking for with fewer clicks.

On the Welcome page, you'll see a "What's New?" section that will have the most current morsel for your consumption.

The navigation bar at the top of the page is the place to start your searching. Hover over the words: People & Teams, Churches, Documents & Resources, or News & Events for a drop-down menu of some of our most beloved resources and information sources.

[If you're looking at the website on your tablet or smart phone, it looks a bit different. You'll need to click on the three lines at the top of the page to find the navigation bar.]

Thank you for spending time on the website. It's one of the ways we stay connected across the Presbytery. Play around with it. Test our links. Is it intuitive? Do you find the information where you'd expect it to be? Please let us know what you think. We have a Contact Us section in the navigation bar, so it's easy to send us feedback.

As the Presbytery, we want to support your ministries by making information readily available. We appreciate your comments, so that we can improve how we communicate about what matters most to you.

Soon, you'll be running the maze even faster than before!
